

## Disclosure of non-standard contracts

This disclosure is published pursuant to Requirements 5 and 14(5) of the Electricity Distribution (Information Disclosure) Requirements 2008.

Orion provides delivery services to one customer (with two connections) on non-standard terms. The ANZSIC of the customer is 21. From 1 April 2011, the terms and conditions are:

1. The contract is for the delivery of electricity to a capacity of 4,800 kVA.
2. Electricity to this connection is delivered at 11 kV.
3. The estimated annual charges for the delivery of electricity are as follows:

	<u>Distribution</u>	<u>Transmission</u>
Year to 31 March 2012	\$407,857	\$234,851
Year to 31 March 2011	\$300,452	\$119,802

4. Monthly payments for the delivery service are due on the 20<sup>th</sup> of the month in which the service is provided.
5. Security for the payment is provided on standard terms, consistent with those that apply for all other directly contracted customers.
